Be Storm Water Savvy

The Center for Environmental Study (CES) developed a Be Storm Water Savvy Media Campaign Toolkit through an EPA Section 104(b) Water Quality Programs grant administered by EGLE. The toolkit consists of resource items that were evaluated and selected by CES for timeliness and appropriateness for use within the Public Education Plan developed by local governments to implement requirements of the Phase II Stormwater NPDES permit. These items, listed below, have been revised when appropriate to make them unstable throughout the state. The Be Stormwater Savvy logo developed for use statewide has been incorporated into most items.

- [Home Scavenger Hunt-Word](#): 2-color, 8 ½ x 11, original idea developed by RiverSmart.
- [Wetlands Crossword Puzzle](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.
- [Household Hazardous Waste Word Search](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.
- [Our Lawns Pollute – Code Buster](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.
- [River Wildlife – Connect the Dots](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.
- [River Fish – Name Scramble](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.
- [Storm Drain Maze](#): 1-color, 8 ½ x 11, original idea developed by the Rouge River Project.

Water-Related Books

All the Way to the Ocean

This YouTube video is a virtual read aloud of picture book, “All the Way to the Ocean” by Joel Harper. This book tells the story of how litter from storm drains can eventually make its way to the ocean.
